

Business Analysis Professional with AI Certified (BAPC™)

Overview

The Business Analysis Professional with AI Certified (BAPC™) course is intended for professionals with hands-on experience in Business Analysis. It emphasizes leadership, strategic alignment, and the use of advanced BA tools in multi-stakeholder or enterprise environments. The certification enhances the ability to manage complex projects and contribute to organizational change initiatives.

** The pass rate for the BAPC examination indicates the percentage of candidates who attempted all the questions and passed on their first attempt

Exam Format

- Multiple choice
- 100 questions per exam
- One mark awarded for every right answer
- No negative marks for wrong answers
- 120 minutes duration
- Proctored online exam
- Current pass rate: 95%

Audience Profile

This certification is ideal for experienced Business Analysts, project leads, and professionals managing complex initiatives or driving strategic business change.
